A Big Thank You from Ambler Branch Library:

Friends, your membership support in 2024 helped us offer a wide range of educational and engaging programs for both children and adults. You made it possible for us to host computer classes, music performances, arts and crafts, health and nutrition workshops, history programs, and exciting summer reading activities.

With the backing of Friends-funded programs, we brought together more than 1,300 people at the library.

Additionally, the Friends purchased supplies for STEM activities, arts and crafts projects, and books and materials for ESL classes and special programs designed for adults with developmental disabilities.
